LDD EXAM

EnsiCaen – SATE 3A

2018/2019

Read the attached Linux device driver.

The source has been simplified to reduce printing for this exam.

Write and draw the SART view of this driver as explained next slide.

SART - Data flow and real time example

Provide data flow and real time diagram of the driver. Use:

- Box for external entity like HW
- Bubble for function
- Stack for data storage
- Plain arrow for data flow
- Dashed arrow for control flow
